Lytle joined meeting at 8:39 a.m.

Kyle Duntz of Odell, NE appeared and spoke under public comments with concerns about the prospect of the county approving the purchase of the Pictometry Program and the cost of the program compared to what the Assessor's Office is currently using. He stated that you can see what you need to with the current system or Google Maps. Deputy Assessor Annette Corts made the point that Pictometry has much more valuable information available and that their office would not be the only office benefiting from the applications the program offers, and also that the current mapping done through GIS has only been done twice in the last 10 years making it outdated rather quickly and the county still had to pay for the service. Dorn added that the cost would be shared with the City of Beatrice.

Corts gave an update on activities of the Assessor's Office saying that Permissive Exemption Forms have been sent to entities who qualify for tax exemptions. This form needs to be submitted every four years and is due back by December 31st.
